

## UMRAO HOSPITALS: BRINGING WORLD-CLASS AND AFFORDABLE HEALTHCARE TO MIRA-BHAYANDAR

- Hon'ble Shri. Ghulam Nabi Azad, Union Minister of Health & Family Welfare, Government of India inaugurated the hospital
- Hon'ble Shri. Ashokrao Chavan, Chief Minister, Maharashtra laid the foundation stone of Umrao College of Nursing Education & Asmita College of Architecture
- Hon'ble Shri. Digvijay Singh, General Secretary- AICC & Former Chief Minister, Madhya Pradesh released “**Syed Nazar Hussain- Man with a mission**” a book on the Life & Achievements of the legendary Syed Nazar Hussain, Chairman, The Umrao Institute of Medical Science & Research Trust.

1<sup>st</sup> November 2010, Mumbai - Asmita Group's first 330-bedded, multi-specialty, tertiary-care Umrao Hospital in Mira-Bhayander area was inaugurated by Hon'ble **Shri. Ghulam Nabi Azad**, Union Minister of Health & Family Welfare, Government of India. This hospital has been built with a primary objective to serve the residents of far off western suburbs and nearby towns stretching from Borivali to Vapi.

Commemorating this occasion, Hon'ble **Shri. Ashokrao Chavan**, Chief Minister, Maharashtra laid the foundation stone for Umrao College of Nursing Education & Asmita College of Architecture. Also, Hon'ble **Shri. Digvijay Singh**, General Secretary, AICC & Former Chief Minister, Madhya Pradesh released a book on Life & Achievements of Mr. Syed Nazar Hussain who is the Chairman for *The Umrao Institute of Medical Science & Research Trust*

Dr. Rajendra Sharma, CEO, Umrao Hospitals said, “At Umrao Hospitals the primary focus would be to provide Critical Care across multiple specialties during the golden hour. Another **area of focus would be Neonatology, which is available in very few hospitals across the Country, Trauma & Emergency and Interventional Cardiology & Heart Surgery**. Patient-centric care supported with state-of-the-art infrastructure will drive the spectrum of services at the hospital.”

Mr. Muzaffar Hussain, Chairman, Umrao Hospitals stated, “There is a huge need for a hospital of this scale in Mira -Bhayander area. Over the years the population of the area has been increasing manifolds but there is a shortage of good tertiary care,

multi-specialty hospitals. For generations people have been traveling to hospitals in Greater Mumbai for all their health-care needs. The hospital is built with an aim to offer unparalleled care with compassion and we intend to provide advanced medical care of global standards at an affordable price.”

Emphasizing on the development plan of the hospital he further added, “We have the blue-print in place to set up a College of Nursing & Paramedics. We are setting up a multi-specialty hospital in Delhi and having plans to expand along the Mumbai-Delhi corridor with 5-6 more hospitals.”

Umrao Hospitals is an offering of The Umrao Institute of Medical Science & Research Trust (TUIMSAR). Established in 1990, the Trust is engaged in activities that foster the quality of life in the society, while Umrao Hospitals is focused on taking sustainable measures for improving the overall healthcare standards of the society. Umrao Hospital is the first hospital to introduce innovative services like ‘Patient-record digitalization’, “Real-time waveform monitoring of treatment”, “Air Ambulance” and “ICU on wheels” for the first time in Mira - Bhayander area.

### About Umrao Hospitals

Umrao Hospitals marks the foray of Asmita Group into Health-care. The Group has a strong presence in the sectors of Infrastructure and Education. Umrao Hospitals is the latest offering of Asmita Group that strongly reflects their ideology of growth with a bent of social responsibility.

Umrao Hospitals is an upcoming tertiary-care, multi-specialty hospital, which makes it one of its kinds on the thriving Mira Road and its surroundings. The hospital specializes in Trauma Care & Emergency Services, Interventional Cardiology & Cardiac Surgery, Bone & Joint care, Brain & Spine, Kidney diseases & Endourology, Nephrology & Urology and Neurology

The hospital, launched on 1<sup>st</sup> Nov, is equipped to provide care across major medical specialties through a 360 ° window including consulting, diagnostics and therapy. Also, the hospital envisions making global-class healthcare affordable and accessible.
